

# Stark *Image*WALL

Exclusive video scenography  
in a Luxury crystal wall

**..endless image any size an any shape, borderless...  
luxury world in your ambient**

**StarkImageWall** is a luxurious, elegant crystal wall that combines a high definition screen with a refined finish. **StarkImageWall** can be created in any size and form, ultimately reaching a dimension of hundreds of square meters. Developed expressly for the nautical sector, because it is ultra thin (only 11.5 cm thick) with totally frontal maintenance, it can be installed on any wall, curved or flat, in public and industrial areas.

When not in use **StarkImageWall** has an elegant and sophisticated satin finish crystal surface thanks to its completely invisible technology; when it is turned on, it can be used to create large scale images and spectacular animated graphics and reproduce interactive videos.

**...emotion in motion...**

# StarkInteractiveImageWALL

## StarkInteractiveImageWall

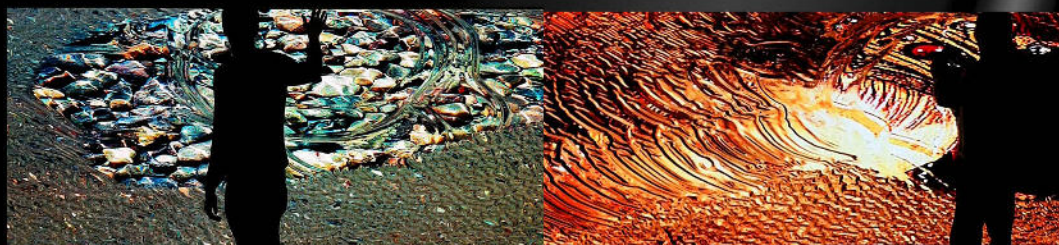

In the interactive version, it creates elegant graphic decorations and spectacular interactive, scenic effects, like virtual 3D water.

The system's third generation interactivity technology can be used to create extraordinary 3D water effects which react to the movement of the observers; it can be personalized at any time with new, spectacular effects... limited only by your imagination.

The screen is available in a variety of colours and modules that adapt to your needs. The customized construction of modules which can be personalized can be used to cover even irregular surfaces.

### Technical data:

- 11.5 cm thick - Electrical consumption of about 500W / m<sup>2</sup> - Service life of 100,000 hours
- No limits to wall dimensions - It can be installed on ceilings and curved surfaces
